CONFERENCE INFORMATION

Welcome

The 7th International Sociodrama Conference, organised by the Portuguese Society of Psychodrama (SPP), will take place from 24 to 28 June 2020 in the MH Peniche Hotel, in the village of Peniche, and will have around 400 participants from all over the world.

It is an important international event for all those interested in social and community intervention.

This Conference is based on humanistic, democratic and universal principles, according to the Universal Declaration of Human Rights.

We invite you to join this Conference. It will be four days of presentations and workshops, held in the conference hotel and also in the local community. Both conducted by international experts in the practices of Sociodrama, Sociometry and Sociatry.

Several aspects of the method will be either demonstrated or applied in different contexts (clinical, educational, institutional and community).

Apart from an opportunity for professional training, it is also a moment of social healing applied to the surrounding community. The idea is that several workshops will take place in local institutions, such as schools, hospitals, companies, public squares and even local authorities.

Join us and see you in June 2020!

Manuela Maciel, Conference President
Miguel Vasconcelos, SPP President
